Port of Barrow Island Marine Notice 03/2020

New Wave Rider Buoy Installed

29 March 2020

Mariners are advised that a New Wave Rider Buoy (WRB) has been deployed to the east of the Gorgon Marine Terminal (GMT).

The Port of Barrow Island now has two Wave Rider Buoys active in proximity and mariners are advised to avoid this area unless engaged in maintenance activities.

Below coordinates indicate the new location for deployment as well as the current location of the existing WRB within port waters.

New WRB

- **Latitude: 20° 48.900’S, Longitude: 115° 29.850’E.**
- **Flash rate: Fl (0.5) W 4.5s – temporary sequence**

Chart Reference: AUS 65 - Approaches to Barrow Island will updated in due course as well as the Port of Barrow Website.

Existing WRB still in operation at the below coordinates:

- **Latitude: 20° 48.820’S, Longitude: 115° 29.880’E.**
- **Flash rate: Fl (5) Y 20s.**

Mariners are reminded to update their records and ensure information is efficiently promulgated.

Port of Barrow Island Marine Notice 13/2017
DoT TNTM 2015-166 Wave Rider Buoy Barrow Island – Reissued

17 December 2017

The below Temporary Notice to Mariners (TNTM):2015-166 published by the West Australian Department of Transport (DoT) which is still current has been reissued within this Port of Barrow Island Marine Notice 13/2017.

Current DoT TNTM can also be reviewed and downloaded from the DoT TNTM webpage.

Port of Barrow Island

Mariners are advised that a wave rider buoy has been deployed in the Port of Barrow Island at the following location until further notice as part of the Gorgon Project:

- Latitude: 20° 49.47’s, Longitude: 115° 30.85’e.

Chart Reference: Chart AUS 65 - Approaches to Barrow Island

The above wave rider buoy is yellow in colour, approximately 0.45 metres in diameter and equipped with a flashing yellow light.

- Flash rate: Fl (5) Y 20s.

Mariners are advised to navigate with caution when transiting the area and keep well clear of the above wave rider buoy at all times.

Authorised by: Capt. Steven Wenban, Harbour Master, Port of Barrow Island, Marine Safety Department of Transport.

- Start date:
- End date: Until Further Notice.
- Issued: 20/11/2015

Port users and operators are reminded to update their records and ensure information is efficiently promulgated.

Port of Barrow Island Marine Notice 11/2017

Marine Offloading Facility (MOF) Channel Declared Depth

13 September 2017

Port users are to be advised that the declared depth for the Marine Offloading Facility (MOF) shipping channel between the channel markers and to the north of the centerline of the leads is 5.6 meters below chart datum. The declared depth for the MOF shipping channel to the south of the centerline of the leads is 6.4 meters below chart datum.

Mariners are to ensure that declared depths are considered when using this channel and that sufficient under keel clearance (UKC) remains in place always.

The diagram below indicates the area of the new declared depth enclosed within the blue lines. All other areas within the Port of Barrow Island MOF remain maintained as per chart AUS 66 and current Port of Barrow Island Marine Notices.

Port of Barrow Island Marine Notice 08/2017 and 10/2017 are cancelled

Port users and operators are reminded to update their records and ensure information is efficiently promulgated.

Port of Barrow Island Marine Notice 09/2017

Gorgon Marine Terminal (GMT) Channel Declared Depth

29 July 2017

Port users are to be advised that the new declared depth for the Gorgon Marine Terminal (GMT) shipping channel and turning basin is 13.3 meters below chart datum.

Mariners are to ensure that declared depths are taken into account when using this channel and that sufficient under keel clearance (UKC) remains in place at all times.

The diagram below indicates the area of the new declared depth enclosed within the red lines. The berthing pockets at the GMT remain declared at 15 meters.

The previous Port of Barrow Island Marine Notice 05/2017 declaring the GMT depth to be 13.4m is now cancelled.

Port users and operators are reminded to update their records and ensure information is efficiently promulgated.

Port of Barrow Marine Notice 14/2015

Heavy Lift Facility (HLF) Berth Declared Depth

05 August 2015

Port users are to be advised that the Heavy Lift Facility (HLF) berth pocket has a declared depth of 7.0m in its southern half. Mariners are to ensure that declared depths are taken into account when using this facility and that sufficient under keel clearance (UKC) remains in place at all times.

A diagram indicating the region of the declared depth within the HLF berth pocket can be found on page two of this Marine Notice.

Port users and operators are reminded to update their records and ensure information is efficiently promulgated.
