Managing Director's Compliance Statement and Endorsement

This Compliance Report is submitted by Chevron Australia Pty Ltd (the person taking the action) in accordance with Condition 3 of EPBC Reference: 2008/4469 (as amended).

The person taking the action is compliant with the conditions referred to in EPBC 2008/4469 (as amended), except for a potential non-compliance with Condition 26 of EPBC 2008/4469 (as amended).

I, Mark Hatfield, as Managing Director of the person taking the action, endorse this Compliance Assessment Report.

Signed: 

Name: Mark Hatfield
Managing Director
Chevron Australia Pty Ltd

Date: 28.11.2023

1 Introduction

This Compliance Assessment Report (the Report) was prepared to meet the requirements of Condition 3 of EPBC Reference: 2008/4469 (as amended). This Report addresses the compliance status of the Wheatstone Development with the conditions referred to in EPBC 2008/4469 (as amended) for works carried out during the reporting period 31 August 2022 to 30 August 2023.

Chevron Australia Pty Ltd (CAPL) is compliant with the conditions referred to in EPBC 2008/4469 (as amended) except for a potential non-compliance with Condition 26 of EPBC 2008/4469 (as amended).

The status of the EPBC 2008/4469 conditions for the reporting period 31 August 2022 to 30 August 2023 are included in the Compliance Assessment Table (Table 2-1).

1.1 Compliance status terminology

For this Report, CAPL has adopted the Action Implementation Status terminology from the Western Australian (WA) Office of the Environmental Protection Authority's (OEPA; now the Department of Water and Environmental Regulation [DWER]) Post Assessment Guideline for Preparing an Audit Table document (Ref. 1). This terminology is listed in Table 1-1 and is used for reporting compliance status in Table 2-1.

Table 1-1: Compliance status terms

Status	Description
Compliant	Implementation of the proposal has been carried out in accordance with the requirements of the audit element
Completed	A requirement with a finite period of application has been satisfactorily completed
Not Required at this Stage	The requirements of the audit element were not triggered during the reporting period
Potentially Non-compliant	Possible or likely failure to meet the requirements of the audit element
Non-compliant	Implementation of the proposal has not been carried out in accordance with the requirements of the audit element
In Process	Where an audit element requires a management, or monitoring plan be submitted to the OEPA or another government agency for approval, that submission has been made and no further information or changes have been requested by the OEPA or the other government agency and assessment by the OEPA or other government agency for approval is still pending

1.2 Public availability of the report

As per Condition 3 of EPBC 2008/4469 (as amended), CAPL (the person taking the action) must publish a Compliance Assessment Report on their website by 30 November of each year following commencement of the Project, addressing compliance against the conditions referred to in EPBC 2008/4469 (as amended) for works carried out during the reporting period, including implementation of any management plans as specified in the conditions.

A copy of the Report will be maintained on CAPL's website for at least 12 months, after which the Report will be made available, where appropriate, on request.

2 Compliance findings for EPBC 2008/4469 (as amended)

Compliance with the conditions of EPBC 2008/4469 (as amended) is shown in Table 2-1 for the reporting period 31 August 2022 to 30 August 2023.

Table 2-1: EPBC 2008/4469 compliance assessment audit table

Notes:

- Common phases of development referred to in this table include: Design, Pre-Construction, Construction, Operation, Decommissioning, Overall (several or all phases).
- This audit table summarises the EPBC 2008/4469 conditions that apply to the Wheatstone Development. The Requirement column is intended to accurately reflect the content of EPBC 2008/4469; however, if there is any deviation, the content of EPBC 2008/4469 shall take precedence.
- If a condition of EPBC 2008/4469 is replaced or amended during a reporting period, this compliance audit table will record the condition as it was, the date of the amendment, and the condition in its amended form. The compliance assessment for that period will then assess compliance with whichever relevant condition that applied up to, and then after, the date of the condition amendment. In subsequent assessment periods, the date of the condition amendment will be noted, but the audit table will only include the amended condition.
- Where the Commonwealth Department of Environment, Water, Heritage and the Arts (DEWHA), the Commonwealth Department of Sustainability, Environment, Water, Population and Communities (SEWPaC), the Department of the Environment (DotE), or the Commonwealth Department of the Environment and Energy (DotEE), or the Commonwealth Department of Agriculture, Water and the Environment (DAWE) is referred to, this shall be taken to mean the Commonwealth Department of Climate Change, Energy, the Environment and Water (DCCEEW).
- Lighter text is the historic evidence of compliance from previous EPBC 2008/4469 Compliance Reports, which is included for completeness where appropriate.

EPBC Ref and Condition No.	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further information
EPBC 2008/4469:1	Notification of Commencement	Within 10 days after the commencement of the action, the person taking the action must advise the department in writing of the actual date of commencement.	Provide written advice to the department advising of the actual date of commencement.	Records demonstrating submission of advice of commencement to the department	Construction	Within 10 days after the commencement of the action.	Completed	Notification letter from CAPL to SEWPaC, 9 December 2011 (WS0-0000-HES-LET-CVX-DEH-00017). Wheatstone Project works commenced on 7 December 2011.
EPBC 2008/4469:2 (effective from 30 October 2015)	Maintenance of Records	The person taking the action must maintain accurate records substantiating all activities associated with or relevant to the conditions of approval, including measures taken to implement the plans, programs, strategies and code of conduct, required by this approval, and make them available upon request to the Department. Such records may be subject to audit by the Department or an independent auditor in accordance with section 458 of the <i>Environment Protection and Biodiversity Conservation Act 1999</i> (EPBC Act), or used to verify compliance with the conditions of approval. Summaries of audits will be posted on the Department's website. The results of audits may also be publicised through the general media.	Maintain accurate records substantiating all activities associated with or relevant to the conditions of approval.	Annual Compliance Assessment Report. Records demonstrating request of records by the Department and receipt of submitted records.	Overall	For life of Project.	Compliant	The Wheatstone Project maintains a robust document management system (D2) that provides a controlled and secure repository for all Project documentation. Evidence provided in each annual Compliance Assessment Report is supported by document reference numbers from this system to substantiate activities associated with, or relevant to, the conditions of approval for EPBC 2008/4469. No requests were made by the Department during the reporting period for records substantiating activities associated with, or relevant to, the conditions of approval.
EPBC 2008/4469:3 (effective from 30 October 2015 to 28 January 2022)	Compliance Reporting	By 30 November of each year after the commencement of the action, the person taking the action must publish a report on their website addressing compliance and non-compliance with the conditions of this approval for the period from 31 August to 30 August each year, including implementation of	A Compliance Report will be published on the Proponent's website annually addressing compliance and non-compliance with the conditions of this approval. Publish Compliance Reports on the	Annual Compliance Assessment Report. Records demonstrating submission of the Report to the Minister and receipt if provided.	Overall	By 30 November of each year.	Completed	This Report, i.e. Wheatstone Development: EPBC Reference 2008/4469 Compliance Assessment Report 2022 (ABU220800569). It covers the period 31 August 2021 to 30 August 2022. This report is required to be published on CAPL's website by 30 November 2022.

		<p>Department in writing of any non-compliance with the conditions. The notification must be given as soon as practicable, and no later than five business days after becoming aware of the non-compliance. The notification must specify:</p> <ul style="list-style-type: none"> a. the condition which is or may be in breach; b. a short description of the potential or actual non-compliance; and c. the location (including co-ordinates), date and time, to the extent that these can be determined, of the potential or actual non-compliance. 	business days of discovery of a non-compliance with a condition and the details of the NC.	notification to the department within 5 business days of the NC.		the discovery of a NC.		
EPBC 2008/4469:3B (effective from 28 January 2022)	Notification of non-compliance	<p>3B. The person taking the action must provide to the Department the details of any non-compliance with the conditions as soon as practicable and no later than 10 business days after notification provided under condition 3A, specifying:</p> <ul style="list-style-type: none"> a. any corrective action or investigation which the person taking the action has already taken or intends to take in the immediate future; b. the potential impacts of the potential or actual non-compliance; and c. the method and timing of any remedial action that will be undertaken by the person taking the action. 	Notification to the department within 10 business days of a non-compliance with a condition, a follow up on any investigations/remedial actions taken need to be provided to DAWE	Records demonstrating notification to the department within 10 business days of the NC.	Overall	Within 10 business days of the discovery of a NC.	Compliant	There were no instances of Non-Compliance with the conditions during the reporting period.
EPBC 2008/4469:4	Audit of Compliance	<p>Upon the direction of the Minister, the person taking the action must ensure that an independent audit of compliance with the conditions of approval is conducted and a report submitted to the Minister. The suitably qualified independent auditor must be approved by the Minister prior to the commencement of the audit. Audit criteria must be agreed to by the Minister and the audit report must address the criteria to the satisfaction of the Minister.</p>	<p>Nominate an independent auditor. Develop and submit audit criteria. Undertake an independent audit of compliance with the conditions of approval. Prepare and submit audit report.</p>	<p>Written request by Minister to undertake an independent audit. Records demonstrating submission of the auditor nomination and audit criteria. Written advice from the Minister acknowledging approval of the nominated auditor and audit criteria prior to the commencement of the audit. Records demonstrating</p>	Overall	Upon the direction of the Minister.	Compliant	There was no direction from the Minister to ensure an independent audit was conducted during the reporting period.

EPBC Ref and Condition No.	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further information
				submission of the audit report. Written advice from the Minister acknowledging that the audit satisfactorily addressed the criteria.				
EPBC 2008/4469:5 (effective from 30 October 2015)	Revisions to Ministerial Deliverables	If the person taking the action wishes to carry out an activity otherwise than in accordance with the plans, programs or strategy or code of conduct as specified in the conditions, the person taking the action must submit to the Department for the Minister's written approval a revised version of that plan, program or strategy or code of conduct. The varied activity shall not commence until the Minister has approved the varied plan, program or strategy or code of conduct in writing. If the Minister approves the revised plan, program or strategy or code of conduct it must be implemented in place of the plan, program or strategy or code of conduct originally approved.	Prepare and submit a revised plan, program or strategy or code of conduct as specified in the conditions. Implement approved revised plan, program, or strategy or code of conduct.	Revised plan, report, program or strategy or code of conduct. Records demonstrating submission for the Minister's determination of the revised plan, program, or strategy or code of conduct. Annual Compliance Report.	Overall	If the person taking the action wishes to carry out an activity otherwise than in accordance with the plans, programs, or strategy or code of conduct as specified in the conditions.	Compliant	This Report, i.e. Wheatstone Development: EPBC Reference 2008/4469 Compliance Assessment Report 2023 (ABU230900319). It covers the period 31 August 2022 to 30 August 2023 and references the correspondence to the Minister requesting approval of revisions to management plans, research plans, response plans, strategies, management programs, monitoring programs, and codes of conduct; and the Minister's subsequent approvals of those documents. No plans, programs, reports, or strategies, or other documents required by these conditions were amended during the reporting period.
EPBC 2008/4469:6 (effective from 30 October 2015)	Revisions to Ministerial Deliverables	If the Minister believes that it is necessary or convenient for the better protection of listed threatened species and communities, listed migratory species or the Commonwealth marine area to do so, the Minister may request that the person taking the action make specified revisions to the plan, program or strategy or code of conduct specified in the conditions and submit the revised plan, program or strategy or code of conduct for the Minister's written approval. The person taking the action must comply with any such request. The revised approved plan, program or strategy or code of conduct must be implemented. Unless the Minister has approved the revised plan, program or strategy or code of conduct, then the person taking the action must continue to implement the plan, program or strategy or code of conduct	Prepare and submit a revised plan, program or strategy or code of conduct as specified in the conditions. Implement approved revised plan, program, or strategy or code of conduct.	Records of request from the Minister. Revised plan, program or strategy or code of conduct. Records demonstrating submission for the Minister's determination of the revised plan, program, or strategy or code of conduct. Annual Compliance Report.	Overall	If the Minister believes that it is necessary or desirable for the better protection of listed threatened species and communities, listed migratory species, or the Commonwealth marine area.	Compliant	There were no requests from the Minister during the reporting period to make specified revisions to the plan, program, or strategy, or code of conduct specified in the conditions.

EPBC Ref and Condition No.	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further information
		originally approved, as specified in the conditions. This condition does not apply to plans, programs or strategies for which condition 71 applies.						
EPBC 2008/4469:7	Commencement of Action	If, at any time after 5 years from the date of this approval, the person taking the action has not substantially commenced the action, then the person taking the action must not substantially commence the action without the written agreement of the Minister. Note. The date stated in condition 7 relates to the date of the approval decision (22 September 2011).	Provide written advice to the Minister requesting the commencement of the action.	Records demonstrating submission of advice of commencement of the action to the Minister. Records demonstrating acknowledgement from the Minister regarding commencement of the action.	Pre-construction	After five years of the date of this approval (22 September 2011) if the action has not been substantially commenced	Completed	See EPBC 2008/4469:1.
EPBC 2008/4469:8 (effective from 30 October 2015 to 28 January 2022)	Publication of Ministerial Deliverables	Unless otherwise agreed to in writing by the Minister, the person taking the action must publish all plans, programs, strategies or code of conduct referred to in these conditions of approval on their website. Each plan, program or strategy or code of conduct must be published on the website within 1 month of being approved. This condition does not apply to plans, programs or strategies for which condition 71 applies. Note: The Minister may agree to exclude the requirement to publish information that is considered confidential.	Publish all plans, programs, strategies, or code of conduct referred to in these conditions of approval on Proponent website within 1 month of being approved.	Annual Compliance Assessment Report. Content of Proponent's website.	Overall	Within 1 month of approval of deliverables.	Compliant	All management plans, research plans, response plans, strategies, management programs, monitoring programs, or codes of conduct referred to in these conditions of approval were published on CAPL's website within one month of being approved.
EPBC 2008/4469:8 (effective from 28 January 2022)	Publication of Ministerial Deliverables	Unless otherwise agreed to in writing by the Minister, the person taking the action must publish all plans, programs, strategies or code of conducts referred to in these conditions of approval on the website. Each plan, program or strategy or code of conduct must be published on the website within 20 business days of being approved under Condition 5. This condition does not apply to plans, programs or strategies for which condition 71 applies.	Publish all plans, programs, strategies, or code of conduct referred to in these conditions of approval on Proponent website within 20 business days of being approved.	Annual Compliance Assessment Report. Content of Proponent's website.	Overall	Within 20 business days of approval of deliverables.	Compliant	All management plans, research plans, response plans, strategies, management programs, monitoring programs, or code of conduct referred to in these conditions of approval were published on CAPL's website within 20 business days of being approved.

		technically, economically and environmentally feasible to remove.	technically, economically, and environmentally feasible to remove.			decommissioning activities		
EPBC 2008/4469:58 (effective from 30 October 2015 to 28 January 2022)	Decommissioning	The person taking the action must submit for the Minister's approval a Decommissioning Management Plan (DMP) to mitigate the environmental effects of decommissioning the proposal within the Commonwealth marine area. The DMP must include a detailed risk assessment to justify leaving any infrastructure on the seafloor of the Commonwealth marine area and must be consistent with any published Australian Government policy or legislation prevailing at the time. Decommissioning cannot commence until the DMP is approved. The approved DMP must be implemented. Note: If a condition of another approval held by the proponent requires submission of a plan that meets the requirements of condition 58, the proponent may simultaneously meet the relevant requirements of both conditions by submitting a single plan.	Develop and submit a Decommissioning Management Plan (DMP). Implement the approved Plan.	DMP. Annual Compliance Assessment Report.	Operation/ Decommissioning	Prior to commencement of decommissioning activities	Not required at this stage	This condition was not triggered during the reporting period.
EPBC 2008/4469:58 (effective from 28 January 2022)	Decommissioning	The person taking the action must submit for the Minister's approval a Decommissioning Management Plan (DMP) to mitigate the environmental effects of decommissioning the action within the Commonwealth marine area. If the person taking the action wishes to leave any infrastructure on the seafloor of the Commonwealth marine area the DMP must include a detailed risk assessment to justify leaving any infrastructure on the seafloor of the Commonwealth marine area. The DMP must be consistent with any published Australian Government policy or legislation prevailing at the time. Decommissioning cannot commence until the DMP is approved by the Minister in writing. The approved DMP must be implemented.	Develop and submit a Decommissioning Management Plan (DMP). Implement the approved Plan.	DMP. Annual Compliance Assessment Report.	Operation/ Decommissioning	Prior to commencement of decommissioning activities	Not required at this stage	This condition was not triggered during the reporting period.

EPBC Ref and Condition No.	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further information
		Note: If a condition of another approval held by the person taking the action requires submission of a plan that meets the requirements of condition 58, the person taking the action may simultaneously meet the relevant requirements of both conditions by submitting a single plan.						
EPBC 2008/4469:59	Onshore Components	The person taking the action must undertake pre-clearance flora surveys for the Dwarf Desert Spike-rush (<i>Eleocharis papillosa</i>) after sufficient inundation of their potential habitat has occurred for above ground shoots to be sprouting. If these environmental conditions are not achieved prior to clearing of potential habitat, an assessment of likely habitat presence based on a pre-clearing habitat assessment and surveys conducted to date must be undertaken.	Undertake pre-clearance flora surveys for the Dwarf Desert Spike-rush (<i>Eleocharis papillosa</i>) as listed in EPBC 2008/4469:59.	Records demonstrating completion of surveys, or assessment of likely habitat presence.	Pre-construction	Prior to clearance activities	Completed	Technical Note, 31 May 2012, addressing EPBC 2008/4469 Conditions 59, 60 and 61 and detailing pre-clearance surveys (WS0-0000-HES-TNT-CVX-000-00018-000). Submission letter from CAPL to SEWPaC, 31 May 2012 (WS0-0000-HES-LET-CVX-DEH-00032). Letter from SEWPAC, 3 July 2012, advising that Conditions 59, 60, and 61 have been satisfied and 66f will no longer apply (WS0-0000-HES-LET-DEH-CVX-00017).
EPBC 2008/4469:60	Onshore Components	Should the pre-clearance flora surveys find the Dwarf Desert Spike-rush, or the pre-clearing habitat assessment suggest likely habitat presence, then the person taking the action must assess the extent of suitable habitat within a 10 kilometre radius of the disturbance footprint and ensure that no greater than a 30% proportion of suitable habitat for the Dwarf Desert Spike-rush within this area is cleared (unless otherwise in accordance with Condition 61 below).	Ensure that no greater than a 30% proportion of suitable habitat for the Dwarf Desert Spike-rush is cleared as listed in 2008/4469:60.	Records demonstrating the assessment of the extent of suitable habitat.	Pre-construction	Prior to clearance activities	Completed	See EPBC 2008/4469:59.
EPBC 2008/4469:61	Onshore Components	In the event that greater than 30% of Dwarf Desert Spike-rush habitat or likely habitat is proposed to be cleared within a 10 kilometre radius of the outer edge of the disturbance footprint, as described in Condition 60 above, the offset nominated in Condition 66 (f) applies.	Submit a Biodiversity Offset Strategy (BOS)	BOS. Records demonstrating the Minister's determination of the Strategy.	Overall	Prior to clearance activities	Completed	See EPBC 2008/4469:59 and 66.
EPBC 2008/4469:62	Construction Workforce	The person taking the action must ensure that a staff induction program is implemented for all employees and contractors, at the time or before they commence work	Implement a staff induction program for all employees and contractors, at the time or before they commence work on	Records demonstrating evidence of implementation of induction program.	Overall	Prior to commencement of work onsite by employees or contractors.	Completed	The requirements of this condition have been met. Construction was completed in November 2018, with the commencement of commissioning of the Domgas plant.

EPBC Ref and Condition No.	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further information
		<p>on site at the Wheatstone Project. The induction program must include:</p> <p>a. Information on EPBC Act listed species predicted to occur within the Project area including marine turtles, migratory birds, dugong and sawfish, and the related responsibilities of the person taking the action, its employees and contractors.</p> <p>b. Information that fosters a culture of environmental awareness of the values of the area and also raises awareness among employees and contractors of the compliance and enforcement programs of Western Australian department of Environment and Conservation and Western Australian department of Fisheries and penalties that apply for offences.</p>	site at the Wheatstone Project.					
EPBC 2008/4469:63	Construction Workforce	<p>One month prior to commencement of onshore plant construction, or as otherwise agreed in writing by the Minister, the person taking the action must submit to the Minister for approval:</p> <p>a. A Wheatstone Environment Protection Code of Conduct (WEPC), which must:</p> <p>i. be observed by the construction workforce while on duty. This must be enforced by the person taking the action.</p> <p>ii. encourage environmentally responsible behaviour and observation of the WEPC by the construction workforce while off duty and engaging in recreational activities in the Pilbara region. This must be facilitated by the person taking the action.</p> <p>b. The elements of the staff induction program package as required in Condition 62.</p>	Submit Wheatstone Environment Protection Code of Conduct (WEPC).	WEPC. EPBC Ref and Condition No.	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further information
		<p>approved by the Minister and the measures (as specified in the relevant condition) are included in an environment plan (or environment plans) that:</p> <p>a) was submitted to NOPSEMA after 27 February 2014; and</p> <p>b) either:</p> <p>i) is in force under the OPGGS Environment Regulations; or</p> <p>ii) has ended in accordance with regulation 25A of the OPGGS Environment Regulations, the plan, program or strategy approved by the Minister no longer needs to be implemented.</p>						
EPBC 2008/4469:71A (effective from 28 January 2022)	Miscellaneous Conditions	<p>Where a plan, program or strategy (or part thereof) required under condition 45.b, 45.c 47, 50, or 58 has been approved by the Minister and the measures (as specified in the relevant condition) are included in an environment plan (or environment plans) that:</p> <p>a) was submitted to NOPSEMA after 27 February 2014; and</p> <p>b) either:</p> <p>i) is in force under the OPGGS Environment Regulations; or</p> <p>ii) has ended in accordance with regulation 25A of the OPGGS Environment Regulations,</p> <p>the plan, program or strategy approved by the Minister no longer needs to be implemented.</p>	<p>Prepare and submit a Plan.</p> <p>Implement the approved Plan.</p>	<p>Environment Plan. Records demonstrating the NOPSEMA's determination of the Plan.</p>	Overall	Following approval of the Plan under OPGGS Regulations	Compliant	See EPBC 2008/4469:71
EPBC 2008/4469:71B (effective from 30 October 2015)	Miscellaneous Conditions	<p>Where an environment plan, which includes measures specified in the conditions referred to in conditions 71 and 71A above, is in force under the OPGGS Environment Regulations that relates to the taking of the action, the person taking the action must comply with those measures as specified in that environment plan.</p>	Implement the approved Plan.	Annual Compliance Assessment Report.	Overall	For life of Project	Compliant	<p>See EPBC 2008/4469:71 and 71A.</p> <p>The Wheatstone Start-Up and Operations Environment Plan (EP) (WS2-COP-00001, Revision 8.1), in conjunction with CAPL's Consolidated OPEP (ABU-COP-02788), was accepted by NOPSEMA on 1 August 2022.</p> <p>Compliance against the performance objectives and standards of the Wheatstone Project Start-Up and Operations EP (WS2-COP-00001) for the reporting period was reported in the Wheatstone Start-up and Operations EP Annual Environmental Report (AER) 2023 – Commonwealth (ABU230400145) and through the Recordable Environmental Incident Monthly Report Form. The measures as specified in</p>

EPBC Ref and Condition No.	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further information
								<p>condition EPBC 2008/4469 45c, 47, and 50 and included in the EP were complied with.</p> <p>The measures as specified in condition EPBC 2008/4469:47 and included in the OPEP which are relevant to response preparedness were met during the reporting period. No marine oil spill events occurred in the reporting period; therefore, the OPEP has not been triggered for an oil spill event.</p> <p>The Oil Spill Operational and Scientific Monitoring Program (OSOSMP) (ABU130700448), Revision 6 includes the measures specified in EPBC 2008/4469:50.</p> <p>No marine or coastal water oil spill events occurred in the reporting period; therefore the OSOSMP has not been triggered.</p>

3 Acronyms and abbreviations

Table 3-1 defines the acronyms and abbreviations used in this document.

Table 3-1: Acronyms and abbreviations

Acronym/ abbreviation	Definition
ABU	Australian Business Unit
ANZECC	Australian and New Zealand Environment and Conservation Council
BOS	Biodiversity Offset Strategy
CAPL	Chevron Australia Pty Ltd
COFWWDP	Construction Onshore Facilities Waste Water Discharge Plan
CPMMP	Coastal Processes Monitoring and Management Plan
CSMFIMP	Conservation Significant Marine Fauna Interaction Management Plan
DAWE	Former Commonwealth Department of Agriculture, Water and the Environment and Energy (now DCCEEW) (DAWE dates: from 1 Feb 2020 to 30 Jun 2022).
DBMP	Drilling and Blasting Management Plan
DCCEEW	Commonwealth Department of Climate Change, Energy, the Environment and Water (from 1 Jul 2022 to [ongoing]). DCCEEW created by splitting DAWE into DCCEEW and Department of Agriculture, Fisheries and Forestry and taking Energy out of the former Department of Industry, Science, Energy and Resources.
DDSPMMP	Dredging and Dredge Spoil Placement Environmental Monitoring and Management Plan
DEWHA	Former Commonwealth Department of the Environment, Heritage and the Arts (now DCCEEW; DEWHA dates: From 3 Dec 2007 to 14 Sep 2010)
DMP	Decommissioning Management Plan
DMS	Document Management System
DotE	Former Commonwealth Department of the Environment (now DCCEEW) (DotE dates: from Oct 1997 to Oct 1998; then from 18 Sep 2013 to 19 Jul 2016)
DotEE	Former Commonwealth Department of the Environment and Energy (now DCCEEW (DotEE dates: from 19 Jul 2016 to 1 Feb 2020)
DRP	Dugong Research Plan
DTAP	Dredging Technical Advice Panel
DWER	Western Australian Department of Water and Environmental Regulation (formerly Department of Environment Regulation and Office of the [WA] Environmental Protection Authority [OEPA]) (from 1 July 2017 to [ongoing])
EP	Environment Plan
EPBC 2008/4469	Commonwealth Ministerial Approval (for the Wheatstone Project) as amended or replaced from time to time.
EPBC Act	Commonwealth <i>Environment Protection and Biodiversity Conservation Act 1999</i>
EQVRP	Effluent Quality Validation and Reporting Plan
HTFDMP	Hydrostatic Test Fluids Discharge Management Plan
IRP	Indigenous Ranger Program
MDMP	Marine Discharge Management Program
NOPSEMA	National Offshore Petroleum Safety and Environmental Management Authority (Australian)
OEPA	Former Office of the (Western Australian) Environmental Protection Authority (now Department of Water and Environmental Regulation [from 1 July 2017])
OFFFWWDP	Offshore Facilities and Produced Formation Water Discharge Management Plan
OPEP	Oil Pollution Emergency Plan
OPGGS	Offshore Petroleum and Greenhouse Gas Storage
OSERP	Oil Spill Environmental Response Plan
OSOSMP	Oil Spill Operational and Scientific Monitoring Program
POFWWDP	Permanent Onshore Facilities Waste Water Discharge Plan
PPA	Pilbara Ports Authority
SEWPaC	Former Commonwealth Department of Sustainability, Environment, Water, Population and Communities (now DCCEEW) (SEWPaC dates: 14 Sep 2010 to 18 Sep 2013)
TIEMMP	Trunkline Installation and Environmental Monitoring and Management Plan
ToR	Terms of Reference
VSP	Vertical Seismic Profiling
WA	Western Australia
WAMSI	Western Australian Marine Science Institution
WEPC	Wheatstone Environment Protection Code of Conduct
